Course Title on Calendar	Natural Disasters.										
Rationale		The Faculty of Science has approved a motion requiring that General Interest Science Courses be renumbered to 18X.									
Responsible Instructor											
Course Description	This course examines the science behind different types of disasters and our ability or inability to control and predict such events. From this course the student will gain an appreciation of natural disasters beyond the newspaper headlines, and will better understand how the effects of disasters can be reduced.	This course examines the science behind different types of disasters and our ability or inability to control and predict such events. From this course the student will gain an appreciation of natural disasters beyond the newspaper headlines, and will better understand how the effects of disasters can be reduced.
