

# MEMORANDUM

**TO:** Academic Committee

**FROM:** Associate Dean (Academic) Hendren

**MEETING DATE:** November 20, 2007

**SUBJECT:** Exemption for B.Sc. Liberal students taking a Major Concentration in Music, to the regulation regarding credits outside the Faculties of Arts and of Science

With the introduction of the B.Sc. Liberal, Science students are now exposed to a wider range of choices, one of these being the option of taking a Major Concentration in Music. This requires an exemption to the rule limiting Science students to 18 credits outside the Faculties of Arts and of Science.

**Proposed New Regulation for the Undergraduate Calendar, Section 12.3.6.2:**

Students in the B.Sc. Liberal Program taking a Major Concentration in Music may exceed the 18-credit limit for courses outside the Faculties of Arts and of Science, provided that all such courses are necessary to complete their program of study, up to a maximum of 36 Music credits.
